CONSUMER RESPONSIBILITIES

Your DreamLine Shower Products will remain beautiful for many years if you take care of them. Some of the waterproofing plastic strips and other seals will need to be replaced when they show signs of wear, yellowing, or are not watertight. Refer to the parts list of your manual for all seals. Water conditions in various parts of the country will determine any extra cleaning attention you may have to give your new shower enclosure or jetted shower. DreamLine does not recommend the use of harsh abrasive cleansers on any of its products. Harsh cleansers will damage the metal or glass finish on your shower enclosure or jetted shower.
