

DreamLine™

Bathroom of Your Dreams™

JETTED & STEAM SHOWERS

DreamLine™ Jetted and Steam Showers transform your standard bathroom into a home spa. Perfectly designed cabins with individual valve controls for water massage jets, hand-held shower and top "rain shower" bring you the ultimate shower experience. Integrated thermostatic valves provide constant pleasant water temperature for each shower session. Built-in seats and accessory compartments in select models complete the thoughtful cabin designs. Steam kits, integrated in some models and available as an option in the rest of the line, offer you yet another dimension in showering. Steam has been known through the ages to be of great benefit to both body and soul, and now DreamLine Steam Showers bring a spa-style steam bath to your home.
